

Instructor: Jordan Schettler Course: Math 15B Quarter: W Year: '14

**Instructions:** We are interested in your opinion of your instructor's teaching. This information will be used by the faculty and campus administration in evaluating your instructor. These surveys must be filled out and collected in class and returned directly to the department office by a student. The data from these surveys will be available to the instructor only after grades have been submitted to the Office of the Registrar. Please do not write your name on this form. Please write in pen.

Please respond to questions A and B on the ESCI Faculty/Course Response Form before continuing on with this questionnaire.

1. Please comment on the instructor's teaching strengths and weaknesses. (For example, you may wish to comment on preparation and organization of lectures, board work, clarity of presentation, ability to stimulate interest in the subject, ability to explain difficult points, willingness to answer questions, attitude toward students, availability and helpfulness of office hours, homework, fairness of exams and grading). Continue on back if necessary.

Very clear. Passionate about subject.  
one of the best Math Teachers

2. Please comment on the course (for example: content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

Mathematics Department—University of California, Santa Barbara

I think he is very nice, passionate and relatable.

I think his policies are fair and encouraging.  
work. I enjoy his teaching.

2. Please comment on the course (for example: content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

The class is very interesting and fun.

I wish there was a part C

Instructor: Shirley Schettler Course: MATH 115B Quarter: W Year: 2014

He is very clear and his board work is organized.  
Would like him to make it clear what section it is  
in the book. He is always willing to help you.

2. Please comment on the course (for example: content, level of difficulty, textbook, physical conditions of the room and chalk or white boards, suggestions for improvement, advice to students who might take this class, etc.) Continue on back if necessary.

Like I said everything was great except for the book. It needed  
to be more expanded & clear. Schettler made up for it.

Mathematics Department—University of California, Santa Barbara
