Email: kgracekennedy@gmail.com

(Please leave 24-48 hours to respond.)

Class Expectations :

- Be on time, with your class notes and textbook. Attendance is mandatory in the section for which you have signed up.
- Review lecture notes before coming to discussion and memorize definitions.
- Cell phones: Turn them off.

Quizzes : There will be quizzes most weeks.

Webwork :

- <http://webwork.math.ucsb.edu>.
- Login names and passwords are your perm number. **Login ASAP to confirm you can get to your HW. No make-ups for missed WebWork.**
- There is a link to a list of functions for Webwork at the right of your screen when you are doing a problem set.
<http://webwork.math.rochester.edu/docs/docs/pglanguage/availableFunctions.html>
- When you click on email instructor, make sure you start your email "Grace,"

Mathlab :

When: M-F 12-5

Where: South Hall 1607

Students with Disabilities : (From a module during TA training course.)

"If you need disability-related accommodations in this class, if you have emergency medical information you wish to share with me, or if you need special arrangements in case the building must be evacuated, please inform me immediately. Please see me privately after class or in my office."

Academic Integrity : From a module during our TA training course.

"Any test, paper, or report submitted by you and that bears your name is presumed to be your own original work that has not previously been submitted for credit in another course unless you obtain prior written approval to do so from your instructor.

In all of your assignments, including your homework or drafts of papers, you may use words or ideas written by other individuals in publications, Web sites, or other sources, but only with proper attribution. "Proper attribution" means that

you have fully identified the original source and extent of your use of the words or ideas of others that you reproduce in your work for this course, usually in the form of a footnote or parenthesis...

If you are not clear about the expectations for completing an assignment or taking a test or examination, be sure to seek clarification from your instructor or TA beforehand.

Finally, you should keep in mind that as a member of the campus community, you are expected to demonstrate integrity in all of your academic endeavors and will be evaluated on your own merits. So be proud of your academic accomplishments and help to protect and promote academic integrity at UCSB. The consequences of cheating and academic dishonesty—including a formal discipline file, possible loss of future internship, scholarship, or employment opportunities, and denial of admission to graduate school—are simply not worth it.”
