Transfer Math Student Plan

***Important Notes***

**Department Notes:**
- Students accepted as Pre-Math majors must still qualify for the Full Math Majors.
- Math 8 (or equivalent) is a pre-requisite for every upper-division Math course.
- **Pass 1 is restricted to full Math Majors only.**
  - Pre-Majors completing their final pre-major (and preparation) course requirement(s) must come to the Math Department and fill out a change of major petition and get clearance for UD courses.

**College/University Notes:**
- You need **60 Upper-Division major or non-major units overall** to graduate.
- Full-time student status requires a **12-unit minimum.**
- GE requirements **not** already fulfilled by an IGETC can be discussed with College Advising.

---

**STEPS TO TAKE**

1. Check [assist.org](http://assist.org) to see which UCSB equivalent math courses you’ve taken.
2. Choose a major and determine its pre-major requirements (see box to right).
3. Follow flowchart based on how many pre-major classes you’ve completed already.
4. Upon completing pre-major requirements submit Change of Major petition **before** your next pass time.

**Possible full majors:**
- B.S. Applied Math (Former Math Science)
- B.S. Financial Math
- B.S. Math
- B.A. Math

These majors have different pre-major requirements which can be found at:

---

**Upon entering UCSB, if you have...**

- **...Two or more pre-major courses remaining...**
  - You must complete your remaining pre-major requirements with a minimum UC GPA of 2.5

- **...One pre-major course remaining...**
  - You must complete your last pre-major course with “C+” or better and complete one upper division math/stats course** with “C” or better.

- **...All pre-major courses completed...**
  - You must complete two upper division math/stats courses with a “C” or better.**

**Cannot fulfill these requirements with Math 100AB, 193, 195AB, PSTAT 109, 133ABC, 193**
